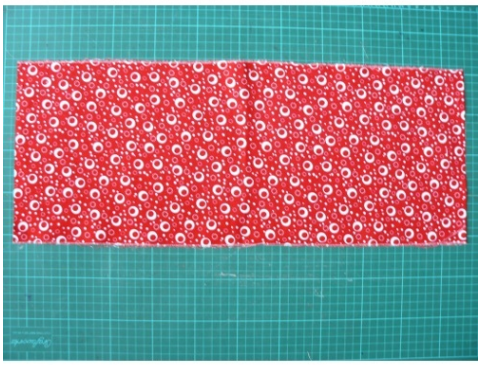
http://www.burdastyle.com/projects/drawstring-gift-bag

A simple drawstring bag to use for gift giving instead of wrapping paper. Intended to be reused again and again and again……

Materials

cotton, ribbon, thread

Step 1



Start with a rectangle of fabric. The size all depends on what you intend to put inside.

Step 2

Fold in half and sew up either side.

Step 3

Fold top edge over twice and press.

Step 4

Sew around twice to create a channel.

Step 5

Turn right side out. You can use your bag as it is here, just jump to step 8 to add the drawstring or carry onto the next step.

Step 6

Turn your bag inside out again. Fold the corners like you see in the photo, press and pin in place. Using a ruler mark a line where you would like to sew.

Step 7

Sew across and trim. Fold right side out.

Step 8

Using you ‘quick unpick’ unpick the stitches in the seam inbetween the channel stitches.

Step 9

Attach a safety pin to your ribbon, thread through the channel and tie a knot in the end.

Step 10

And you’re all done!
