I have wanted to make the sailor pants since last year…Do you like this sort of pants? Do you think you could sew this without sewing instruction?(I don't have one but it quite similar to new Kasia skirt) I uploaded the pattern. With these pattern pieces, you can converse any shorts/pants that has no pleat in the front into sailor pants. I tried the Nichola, and it went great!

Materials

very stretchy cotton mix lycra, perhaps the worst choice of all.

Please provide real instructions
